

## **AJ Preschool Travel & Quarantine Guidance August 2021**

AJ Preschool continues to follow the CDC's guidance on travel (see [HERE](#)). Please follow the *Recommendations for People Who Are Not Fully Vaccinated*:

While you and your family travel, make sure to have everyone (2 years of age or older) wear a mask and maintain physical distance.

Upon returning from travel, you may choose one (1) of the two options for your child before they are able to return to AJ Preschool:

1. A 7-day quarantine with a negative viral test on Day 5 after travel, while continuing to monitor for symptoms. (Viral test results must be submitted to the preschool office), or
2. A 10-day quarantine without a test, while continuing to monitor for symptoms
